

Located in Borlaug Center for Southern Crop Improvement

Looking for an on campus job? Work experience toward your major?

What you will learn:

- Greenhouse management
- Basic molecular biology
- In vitro* biology techniques
- Primer in synbio lab protocols

Undergraduates with at least a 3.0 GPA and able to work 12-15hrs/week apply to work within a lab focused on renewable synthetic biology.

We work to make renewable and sustainable methods and bioproducts in our lab everyday!

How To Apply:

1. Be a Crop and Soil Sciences, BESC, or related major (*undecided/undeclared ok*) with a ≥3.0 GPA
2. Send **CV** or **résumé** to cgorm42691@tamu.edu along with **statement of purpose** (*why you are studying ___*)
